DigiWorld

You are a gaming prodigy and a 10-time world champion in different games, and you have been chosen to test the new revolutionary game "DigiWorld" created by the government. To keep your legacy going you agreed. You will be transported into a digital world full of elemental Mecha Beasts, where you fuse with them and battle challengers.

Professor Alfred:

Hello and welcome Mr. gaming prodigy and 10-time world champion (name) to the gaming lab where you will be testing our new revolutionary game "DigiWorld". Oh, where are my manners!? I'm Professor Ai-P, and I'm in charge in developing this game. You will be transported into a world full of creatures called "Mecha Beasts", fuse with them, create a bond and battle together.

You

Thanks for the explanation, Professor, but may I know what is the reason the government funded to create this game?

General Edrian

I shall be the one to answer that question Mr. (name), I was actually intrigued by gaming. Seeing players think like they're chess masters or generals and coordinate their upper body in tapping their devices to win, it gave me an idea. What if we create a game where you become the character and fight but in a digital world? This way gamers could play digital games while still being physically active, and they will be able to experience the feeling of being their character. This could create a new legacy for "Gamers".

You

That doesn't fully answer my question but oh well. Let's get this started.

Professor Alfred

Excellent! Now before we transport you, you will need this G-Watch, Mech-driver and Beast-Cards. Choose 3 out of these 10 Mecha Beasts:

1. Fire Beast: Kyoflare
2. Water Beast: Nokami
3. Grass Beast: Vineratops
4. Electric Beast: Voltchu
5. Earth Beast: Zyuugor
6. Wind Beast: Pirrot
7. Fighting Beast: Gekuma
8. Dark Beast: Shadefox
9. Steel Beast: Kingmantis(OP Character)

Well then, it’s time to transport you to DigiWorld!

Stage 1: The Alpha Village

Professor Alfred

Welcome to the beta test. Your first mission is to reach Alpha Village and challenge the Alpha Beast. Your G Watch has the map, so just follow the route. Since this is still in beta, you might encounter bugs. Report them if you do. One more thing… you will feel pain, just like in real life. But remember, you will not die.

You (startled)

Wait… what? Pain? You didn't say anything about that!

Professor Alfred

Good luck. The future of gaming and your legacy are in your hands.

You (frustrated)

Did he just cut me off? Ugh, fine. No turning back now.

You arrive at Alpha Village.

You

Hello? Anyone here?

Chief Rei

Welcome, traveler. I am Chief Rei, guardian of this village. What is it you seek?

You

I was told there is an Alpha Beast here.

Chief Rei (serious)

That is true. But tell me… are you a challenger, or just another treasure hunter?

You

I… I guess I am a challenger.

Chief Rei (nodding)

Then follow the Mystic Forest. The path will test you before you reach the Alpha. Be prepared.

You

Thank you, Chief.

Inside the Mystic Forest

Sound effect: BRR BRRR BRRR DIDIDIDI!

Tutorial Start

Announcer

When you step in the wild area grass Mecha Beasts could sense you entering their territory and attack you. You have four options: attack, catch, switch mecha beasts and run. Use attacks to lower enemy hp, the lower the hp the higher catch rate, but putting it in zero hp makes you unable to catch it. Run if you want to escape but you can't run if your facing another player and there's a chance you can't escape wild mecha beasts if your level is lower.

Mecha Beast Encountered Vineratrops

Announcer

You have encountered a Mecha Beast, fight it to continue on your journey. First choose which Mecha Beast you will use and press 1 to transform.

You

BEAST CARD ON! HENSHIN! Wait, why did I just shout that?

Announcer

(BEAST TRANSFORMATION NAME). Now press 1, 2 or 3 to use your skills but be careful in choosing your skills as it takes mana and might have a cooldown.

After tutorial

Announcer

You have successfully completed the tutorial. You may now continue.

You (catching breath)

That… felt too real.

Mecha Beast Encountered Zyuugor

At the heart of the forest

Aldrich

Who dares step into my domain?

You

My name is (Name). I came to challenge you.

Aldrich (smirks)

Then face me. I am Altair, the Alpha. And this is my partner, the Alpha Beast, Gekuma. BEAST CARD ON! HENSHIN!

Announcer: The master of Bear God Fist, GEKUMA!

Boss battle begins. After the fight, Aldrich falls to one knee.

Aldrich (breathing heavily): You… you lack bond with your beasts, yet you still defeated me. Perhaps you are more than just a beginner. Take the treasure.

You: Treasure? I do not need that. I was told only to challenge you.

Aldrich (surprised, then sighs): Hm… how unusual. Then take your victory. You may leave with your pride intact.

Teleportation begins

Aldrich (watching you vanish): What a strange challenger…

Back in the lab

Professor Alfred(clapping): Excellent work. Stage one is complete. And no bugs either. You handled yourself well.

You (angry): Don't act proud! You never told me the pain would feel real. I thought I was going to die!

Professor Alfred (calmly): But you did not. That is the point. This game is meant to be lived, not just played. Now rest. Tomorrow, the next test awaits.

You (gritting teeth): Tch…

Stage 2: "The Beta City"

Professor Alfred: Welcome back, (name). We're about to begin the full test. Are you ready?

You: Yes… somewhat.

Professor Alfred: Alright then, transport!

Announcer: Transport complete!

Professor Alfred: You are now in Beta City! Your goal: defeat the Ace Trainer to earn a Challenge Ticket for the Tournament Trial. Head to the Tournament Hall to register. Good luck, and hopefully… everything goes smoothly.

You: Alright! Let's go!

Ace Jazz: I am the Ace Trainer Jazz. Battle me and win for only the strongest may pass! BEAST CARD ON! HENSHIN!

Announcer: The Bird of the seven seas, PIRROT!

Mecha Beast: Pirrot

(After winning)

Ace Jazz: You've surpassed us all. Take this Challenge Ticket, you've earned it. With it, you're worthy of the Tournament Trial.

Announcer: Congratulations, (name)! You've obtained the Challenge Ticket! You may now attempt the Tournament Trial!

(At the Tournament Trial)

Trialmaster: Welcome, challenger! I am Trialmaster! Will you defeat me to qualify for the tournament, or start all over again?

You: Wait… Professor? Is that you? Are you also testing the game, or is this some NPC of you?

Trialmaster: IIII… d-d-don't know who this Professor you're talking about!

You: Seriously!? You're a bad liar.

Trialmaster: Enough talk! Prove your strength first, then I'll answer. BEAST CARD ON! HENSHIN!

Announcer: The greatest lightning swordsmouse, VOLTCHU!

Mecha Beast: Voltchu

(After winning)

Trialmaster: You've beaten me… and qualified for the tournament! And yes, I'm the Professor. In this game, I'm "Trialmaster." I transported in to personally monitor the test and ensure no glitches slip through. I sense something bad is coming, and I had to see it for myself instead of just observing you.

You: But why would something bad happen? You're a genius, you've planned everything for this game!

Trialmaster: True, but there's been tension between the staff and the General even before the beta started. Reasons I can't share with you… for now. Let's continue testing and see what unfolds.

Announcer: Congratulations challenger (name), you are now registered in the tournament!

Stage 3: “The Collapse of Beta City”

Announcer: IT’S TIME FOR THE TOURNA– BZZZT–KRZZHH–VRRRTTCHH—

You: Huh? A glitch?

BZZZZZT–KRZZZHHHH–VVVRRRTTTCCCHHHHHHH–KRRRRAAAASHHHH–SHHHHHHHHHHHHhhhhh

Trialmaster: THE CITY IS COLLAPSING!

???: Professor, I’m logging you out for safety. Now it’s time to destroy Beta City.

G-Watch (ringing):

You: Professor, what’s happening!?

Professor Alfred: Someone hacked the game. I’m back in the real world. (Name), I need you to stop them and stall for time so I can kick them out and restore the game!

You: Alright! I’m not letting this world die!

(You reach the glitchy figure.)

You: Who are you!?

???: Call me Glitch. I’m the real-world savior. If you win, I’ll stop. If I win, I want your autograph.

You: Let’s do this then!

Glitch: But you will have to fight my beasts first!

3 ka mecha beast (Nokami, Shadefox, KyoFlare)

Glitch: BEAST CARD ON! HENSHIN!

Announcer: The incomplete lightning savage, WOLTRIX!

Mecha Beast: Woltrix

(After winning)

Glitch: You’re as good as they say. I’ll keep my promise—but soon you’ll know the truth.

You: I’ll be ready.

Professor Alfred: Transporting you back! We’ve found the culprit, but we can’t go to the authorities. Check your mail; we’ll meet somewhere safe.

You: Wonder what will happen now, well I’ll just go to sleep for now.

Damage Calculator:

Damage = (((2 × Level ÷ 5) + 2) × MovePower × (YourAttack ÷ EnemyDefense) ÷ 50 + 2) × STAB (1.5 if the same as beast type, else 1) × TypeEffectiveness(neutral (1.0), weak (0.5), super effective (2.0)) × Critical(1.5 if critical hit, 1 if not) x RandomFactor(0.85-1)

Crit rate = 25%

Burned: hp – (max hp*0.5)

Paralyze: 50% chance mecha beast can’t move

Aftershock: deals 10% damage of the enemy max hp

Fear: Enemy can’t attack

Shopkeeper = Boss Rhonn

Items:

Beast Card: Used to catch mecha beasts (catch rate: ((3 × Max HP − 2 × Current HP) × Base Catch Rate (1.0) ÷ (3 × Max HP)) × 0.75

Beast battery: HP recovery (30% of max hp)

Premium beast battery: HP recovery (70% of max hp)

Ultra Beast battery: HP recovery (100% of max hp)

Elemental chips: same element attack enhancement (+30% of the moves attack)

Flame Drive: Converts neutral moves into Fire type

Hydro Drive: Converts neutral moves into Water type

Verdant Drive: Converts neutral moves into Grass type

Volt Drive: Converts neutral moves into Lightning type

Gale Drive: Converts neutral moves into Wind type

World Drive: Converts neutral moves into Earth type

Shadow Drive: Converts neutral moves into Dark type

Iron Drive: Converts neutral moves into Steel type

Beast armor: Defense Enhancement (+30% defense)

Power Gear: Attack Enhancement (+30% attack)

Secondary Battery: HP enhancement (+30% hp)

Overclock: Speed enhancement (+30% speed)

Level up System:

Added HP calculator: HP = ((2 × BaseHP) × Level / 20) + Level + 10

Added stats calculator (attack, defense, speed): Stats = Stat = ((2 × BaseStat) × Level / 20) + 5

Exp needed to level up = floor(BaseXP × Level^2 / 2)

Base XP = 5
